

Nikon Coolpix 995 Battery Replacement

This guide will show how to replace the battery in a Nikon Coolpix 995.

Written By: Cory Layman

INTRODUCTION

This guide will outline how to remove a dead battery, as well as how to properly install a new one.

PARTS:

- [2CR5 \(DL245\) 6V Lithium Battery](#) (1)
-

Step 1 — Battery

- At the top of the camera, turn the Mode dial to **OFF**.

Step 2

- Lay the top of the camera down on a flat surface so that the informational tag and battery compartment are accessible.
- To open the battery compartment, push the latch underneath the word **BATTERY** to the left.

Step 3

- Lift the battery compartment cover and remove the old battery.

Step 4

- Insert the new battery as shown on the underside of the compartment lid.

Step 5

- Flip the battery compartment lid closed and push the latch to the right.

Step 6

- Flip the camera so that the bottom rests on the table.
- Turn the Mode dial to **[A]** to verify that the control panel shows a full power indicator.

To reassemble your device, follow these instructions in reverse order.
